

### ***The Anti-Boring Jazz Experience***

The show that Talking Ties present is sparkling and fun and attracts the general public to Swing music thanks to the vocal and multi-instrumental skills of its members.

Their repertoire ranges from well-known Jazz standards sung by Nat “King” Cole, Frank Sinatra and Louis Amstrong, to swing arrangements of Italian and international pop songs.

The extreme versatility of the band members and the ability to play more instruments in several group-settings make Talking Ties perfectly suitable for every situation: venues, theatres, ball-rooms and private events.
